

Dear FCC,

Many are complaining about the broadcast of "Stolen Honor". The issue here is freedom of speech. There are many objectionable programs on television. NO one is forced to watch any of them.

No one balked to the FCC about Fehreinherit 911, or Up River, both anti Bush and pro Kerry films. Freedom of speech should not be legislated. The AMERICAN people choose what to watch. The persons who object to this film are trying to squelch opinions of those who are against their candidate. They are attemptin to influence the information available to the public.

Please rule in favor of freedom of speech.

Sincerely, Deborh Roldan
